

Conference: "Understand AI evolution through the prism of chess"

Timing: 14h30 - 16h00

Venue: Bourse de Casablanca

Participants: Judit Polgàr, Bachar Kouatly,
Shameed Sait

Artificial Intelligence and Chess have always been closely linked since the emergence of the discipline: chess is fertile ground for evaluating the various AI methods and algorithms developed.

This conference will explore the parallels between chess and the development of AI, and aims to provide some insights into the brave new digital world of tomorrow.
